

Our Programs

SOCIAL AND EMOTIONAL LEARNING

SELF ESTEEM AND MAKING RIGHT CHOICES

Anti-Bullying, Drug and Alcohol Prevention, Equity and Inclusiveness Programs for Grades 4-8

Using role-drama, improv, and relevant stories and articles, our participatory workshops help students grapple with topics such as problem solving, conflict resolution, and good decision making.

They will experience positive, interactive and cooperative activities and explore significant social issues that highlight the power of reflecting before acting out.

In addition, all our Bringing Literature to Life literacy engagement workshops can be adapted to focus primarily on social-emotional learning.
